
Private Fee List

Whilst we are committed to the NHS, we are also aware that the NHS does not meet the needs of all patients. For this reason, we also offer a Dental Plan (approx. £14 per month). This entitles you to two examinations and two hygiene visits per year, as well as a 20% discount off all private and cosmetic treatments. You will also be treated as a priority should you need to be seen between visits. Signing up for our dental plan also entitles you to dental insurance, which covers you for potentially expensive dental bills whilst elsewhere in the UK or overseas.

Treatment	Cost (£)
